

SM 200XLR General purpose Microphone.

The SM 200 XLR is an excellent vocal microphone with a bright midrange which enhances & gives life to vocals especially in the live application.

Features:

- Designed for hi-fidelity vocal reproduction, with brightened midrange.
- Dynamic Cardioid pick up pattern minimizes off-axis pick up, reduces feedback & provides higher system gain.
- Suspended cartridge shock mount system to minimize handling noise
- Low-failure magnetic on-off switch
- Rugged body & dent-proof steel grill that withstands physical shocks.
