

SPS 8 8 Channel Power Supply Sequencer

The Studiomaster Professional SPS-8 is a 8 Channel Power Sequencer, that supplies power to equipment in sequence, thereby offering maximum safety & utmost ease in operation, making it ideal for range of sound reinforcement applications.

2 x 25 Ampere Output Channels for high power equipments like amplifiers, powered speakers etc.

6 x 6 Ampere Output Channels for other lower power equipment like Mixers, CD Players, Processors etc.

Features:

- Provides Powering On & Off Sequencing.
- 2 Operating Modes: Permanent ON & Sequenced On.
- Provides +24V DC Supply to connect auxiliary equipments.
- Selectable Sequence Delay time from 0.5 to 4 Seconds.
- LED Display for AC voltage & ambient temperature.
- 2 x 25 Ampere Output Channels for high power equipment like amplifiers, powered speakers etc.
- 6 x 6 Ampere Output Channels for other lower power equipment like Mixers, CD Players, Processors etc.
- Surge & Spike Protection.
- BNC Lamp Connector On Front Panel.

Technical Specifications:

Output Current	6 x 6A AC & 2 x 25A AC (RMS)
Output Voltage	Max. 275Vac
Output Power	1440 VA ea. (CH 1 - 6) & 6000VA ea. (CH 7 - 8)
Required AC Mains	240VAC (50Hz)
Dissipation Power	20W
Unit Dimensions (W x D x H) mm	483 x 347 x 89
Net Weight	8.80 Kg
